### Notes

Table positions are determined using the following indices, with the team with the highest index first. Where teams are equal on the first index they are separated using the second index, and where they are also equal on the second index they are separated by using the third index. In cases of complete equality between two or more teams their final order is decided by drawing lots.

- |   |               |  |
|---|---------------|--|
| 1 | Victory Index | Calculated by dividing the number of victories by the number of matches.                                     |
| 2 | Hits Index    | Calculated by subtracting the number of hits received by a team from the number of hits scored by that team. |
| 3 | Hits Scored   | The total number of hits scored by a team in all their matches.  |
